### SOLVING YOUR CONSTRUCTION AND CORROSION PROBLEMS WITH CUSTOMISED, END-TO-END FRP SOLUTIONS.

Argos FRP was established in 2004. We are a proudly Australian owned and operated company. We invest heavily in R&D and are committed to helping the industry discover the design, construction, maintenance and cost benefits of FRP.

We have the distinct market advantage of having owned and operated one of the very few pultrusion machines in Australia. We commit ourselves to work closely with our clients throughout the project lifecycle- from concept design phase to construction & sign-off phase.
